### ABOUT THIS SCOPE OF PRACTICE

This document is an EMD UK Scope of Practice overview for professional recognition membership of the National Governing Body for Group exercise. Determining what is and is not part of your scope of practice will be for you to decide using your professional judgement. When deciding whether a particular activity falls within your scope of practice, or when moving into a new scope of practice, you will need to consider whether the training and support you have received adequately equips you to perform the activity safely and effectively. This document defines the scope of practice, training, and skills of a Level 2 Group Training Instructor (Boxing Style Fitness) and the general scope of practice to teach this activity safely and effectively.

# 1. Overview

## SCOPE OF PRACTICE: Level 2 Group Training Instructor (Boxing Style Fitness)

Scope of practice refers to those activities that a person licensed to practice is permitted to perform. An individual must decide their scope of practice. Your scope of practice is the limit of your knowledge, skills and experience and you must ensure that you work within your scope of practice. Your scope of practice is likely to change over time as your knowledge, skills and experience develop. The health and safety of participants is threatened when professionals, are permitted to perform services that are beyond the boundaries of what they have been educated and trained to do.

This scope of practice overview sets clear expectations of our members' knowledge, skills, and abilities as a Level 2 Group Training Instructor (Boxing Style Fitness)

As you progress in your career, you may enter more specialist roles where you are no longer meeting all the standards of proficiency. Your scope of practice will develop with you and may become narrower in scope.

The Level 2 Group Training Instructor (Boxing Style Fitness) sits in the scope of practice of the Core Group exercise instructor as part of the exercise and fitness profession.

The agreed industry prerequisite to commence training to become a Boxing Style Fitness Trainer is through the route of the full qualification as a Level 2 Group Training instructor, Fitness Instruction or equivalent and to have attended Boxing Style Fitness classes for a minimum of 3 months.

If you are already a qualified level 2/3 instructor or equivalent, a Boxing Style Fitness instructor qualification/CPD may be added to your scope of practice as an additional practical award. If you already hold a fitness instructor qualification of level 2/3 or equivalent your scope of practice may be extended by adding additional qualifications, training, or experience.

To gain professional recognition for scope of practice as a Level 2 Group Training Instructor (Boxing Style Fitness) you must hold a recognised level 2/3 qualification certified by an approved centre of an Awarding Organisation who is regulated by Ofqual, together with a CPD (Continuing Professional Development) approved Boxing Style Fitness award.

Any entrant not meeting the prerequisite requirement may fulfil the prerequisite requirements by undertaking an approved "bridging" qualification that meets the professional standards. Individuals who achieve this will be deemed to meet the requirements for professional recognition membership within the Scope of Level 2 Group Training Instructor (Boxing Style Fitness). Note: Training providers may have their own additional pre-requisites to take part in their training.

To retain professional recognition for scope of practice you must meet the requirements set by EMD UK of 10 hours of 'Professional Development' per year.

### 3. EMD UK membership eligibility

Instructors who meet the requirement within this scope of practice will meet the requirements to be a professionally recognised member of the National governing body for Group Exercise to work within the identified scope of practice.

They will:

#### **UNDERSTAND:**

- How to work with a Group of healthy clients with unique needs, in different types of environments, aged between 15 and 65 or above 65 without any long-term conditions.
- Working with adults above the age of 65 may require further skills and training. If adaptations to work with any clients/individuals/groups above the age of 65 requires specialist adaptations related to a long-term condition, then further training relevant to the required specialist professionals' standards will be required.
- Working outside the scope of practice age and target group range may require further skills and training if adaptations to work with clients falls outside what would be considered normal fitness related adaptations, modifications, or progressions.

#### **HAVE DEMONSTRATED:**

- Competence of working with a Group of clients, in a single environment relevant to Group Boxing Style Fitness Class.

Additional specialist training to meet further scopes of practice for varied populations, environment or technical ability can be added to this scope of practice to widen the scope of the role and enable an individual to show their expertise in additional populations, in different environments and with technical specialisms.

#### **Examples of specialisms that may be added:**

- Working with children.
- Working with clients with long term-controlled conditions.
- Working with ante and post-natal clients.
- Working with older adults.
- Working with Special populations.
